ABSTRACT

This study took place is Kedai Kita Perum. Gebang Permai Blok B1, Kedai Kita is a business organization located in Gebang-Jember. The agency business engaged in the production of foods.

Every effort running an institution requires financial reporting, as a condition response, reporting and financial control. Various kinds of reports will be given to the directors in accordance with the reporting intervals that have been granted, the application is known as the accounting report. Accounting is a technique of recording and processing financial transactions to generate reports. Application of accounting in financial reporting is not easy because it requires precision to process and record the number of transactions is relatively abundant. One way out is to apply accounting knowledge in a system that has been integrated so as to facilitate in generating and processing financial reports, or so-called Accounting Information Systems.

Keywords: Kedai Kita, Financial Reoprt, Accounting, Accounting Information Systems.
