**ABSTRACT**

*This study aims to determine the village financial management planning process in Kebonagung Village and analyze the suitability and provide a flowchart for village financial management planning based on Permendagri No. 20 of 2018. In this study, the method used is qualitative research using two types of data, namely primary sources from observation and interviews, and secondary sources from documentation. The data analysis technique used is comparative analysis by testing the validity of the data using a triangulation technique, namely source triangulation. The stages of analyzing the data start from data collection, data reduction, data presentation, and drawing conclusions and verification. The results of this study indicate that the village financial management planning process in Kebonagung Village is in accordance with the village financial management planning process based on the Regulation of the Minister of Home Affairs (Permendagri) No. 20 of 2018.*
