ABSTRACT

The results of fattening cattle and goats in shari'ah farmer cooperatives are very helpful for cooperative members and the community to get good quality cows and goats. The program selects cattle and goats that are already in the barn to find out which cattle are ready to be sold or which are still not suitable for sale after fattening, and is one alternative that can help the sharia cattle cooperative workers in Bondowso Regency, and its potential to make it easier to enter data. KTTS MITRA SUBUR which is located in Karanganyar Village, Tegalampel District, Bondowoso Regency, East Java Province is a cooperative that has a formal legal entity and its role in the world of animal husbandry cannot be doubted, even this cooperative already has hundreds of partners spread across Bondowoso Regency to outside the Regency until now. this. So there is no need to doubt the existence of this cooperative
