

## **CHAPTER 1. INTRODUCTION**

### **1.1 Background**

Education is the process of facilitating learning knowledge and skills. Every countries has different ways to develop their high quality and competent people. In indonesia after the student graduated from senior high school they might chose to continue their study in university or higher vocational institution. Both of those institutions have different way to reach the purpose of education. In the university students put 60% of their attention to learn about the theories. They were lack of practice. Meanwhile in vocational institution the students would emphasize 60% to the practice and 40% about theories. One of vocational institution in Indonesia is Politeknik Negeri Jember.

Internship program is formal program in Politeknik Negeri Jember that provided practical experience for beginners in an occupation or profession. The purpose of this academic program is to create more professional graduates. It is implemented in the sixth semester in 384 hours for diploma three education (D3) and 512 hours in the eight semesters for diploma four education (D4). For English Study Program students, the internship program can be done in some institutions such as hotel, travel agencies, airport, tourism department, companies, and English course.

The writer chose an English Course to conducted internship program, it will help the writer to improve her English skill ability. English Course is an appropriate place to maintain the writer's ability in speaking,listening and writing skills. The writer's choose Winda's English Course Jember as a place to conduct internship program.
