**ABSTRACT**

*This study aims to determine the role of the application of the Village Financial System (SISKEUDES) which was carried out in Bulurejo Village, Purwoharjo District, Banyuwangi Regency. This research is a qualitative research, the data used is primary data with data collection procedures in the form of observations and interviews, the results of documentation and reference data in the form of village financial system modules. The information in this study is from the Village Head and Village Operators. Data analysis was carried out by collecting data, analyzing data, and drawing conclusions.*

*The results of this study indicate that Bulurejo Village has implemented the Village Financial System application (SISKEUDES) since 2022. The application of the siskeudes application provides many benefits and has an important role in village administration and these benefits are felt immediately even though it is still in a transitional stage. With the application of the village financial system application in Bulurejo Village, it can improve the performance of the village government in preparing more effective financial reports and producing reports that are efficient and timely in reporting, this is in accordance with the purpose of carrying out the siskeudes application, namely to assist village government work.*
