***ABSTRACT***

*Workshop business activities are work serving repair or maintenance services for motorized vehicles. Hendrik Motor Workshop is a business engaged in motorcycle repair services, more than that the workshop also sells spare parts in order to complement the needs of motorcycles to replace damaged motor vehicle spare parts. Hendrik Motor's workshop is located on Grujukan road, Bondowoso district. With the development of information system technology, Hendrik Motor Workshop is one of the entrepreneurs who manages stock data manually. Bengkel Hendrik Motor is getting more and more difficult in managing data on incoming stock items and outgoing stock items. One way to make it easier for Hendrik Motor Workshop, the owner of this workshop creates a spare part sales information system website using the First In First Out method with the aim of making the information system easier for workshop owners to manage existing stock data.*
