ABSTRACT

The regional income and expenditure budget is one of the government's measurement indexes in achieving effective results by using sources of income efficiently in realizing the welfare of the regional community in the implementation of regional autonomy so that the manifestation of good governance and accountability within the scope of government in implementing activities is formed. The research conducted has the aim of providing information about an analysis of the efficiency and effectiveness of the implementation of the 2016-2020 budget for the Surabaya City BAPPEDALITBANG. The method applied in this study is a qualitative method by utilizing primary data and secondary data in the form of interviews and results of documentation and the method applied in the analysis of this data is in the form of an analysis of efficiency and effectiveness calculations. The results of the research show that the Surabaya City Research and Development Regional Development Planning Agency (BAPPEDALITBANG) has implemented efficiency in implementing the budget, but in terms of the effectiveness of the spending budget it is still not effective in 2020.

Keywords: *Efficiency, Effectiveness, Budget Execution, BAPPEDALITBANG, and Surabaya.*
