***ABSTRACT***

*This study aims to analyze village financial management in Kembiritan Village, Genteng District, Banyuwangi Regency. The research method used is descriptive with a qualitative approach using primary and secondary data, namely interview results and documentation. To test the validity of the data using triangulation techniques. The results of this study explain that Financial Management in Kembiritan Village, Genteng District, Banyuwangi Regency has implemented village financial management based on Permendagri number 20 of 2018 starting from planning, implementation, administration, reporting and accountability. However, there are obstacles at the planning stage, namely the delay in hamlet viewing activities in Kembiritan Village when taking community aspirations. This is due to the length of determining the activity points on the seven in Kembiritan Village.*
