ABSTRACT

The purpose of this study was to analyze and explain the effect of transparency, accountability and internal control on the financial performance of BPPKAD Probolinggo Regency. This study uses quantitative methods with research instruments using questionnaires with a Likert scale and data analysis techniques through multiple linear regression analysis. Respondents in this study were employees of BPPKAD Probolinggo Regency. The results of the analysis show that transparency, accountability and internal control have a significant effect on financial performance.
