***ABSTRACT***

*This study aims to analyze the accounting system related to the preparation of financial reports of income and expenses at the As'adul Hasan Genggong Foundation. This study uses a descriptive qualitative method using data collection techniques in the form of interview results, documentation, and documents or financial reports related to income and expenses at the As'adul Hasan Genggong Foundation. The data analysis techniques used are, collecting data, data reduction, data presentation and drawing conclusions. The results of this study indicate that the accounting system at the As'adul Hasan Genggong Foundation regarding the preparation of income and expense reports is still manual based.*
