Taman Pintar Yogyakarta is one of the tourist attractions in Yogyakarta. The uniqueness of Taman Pintar Yogyakarta as an educational attraction that combines science, technology, and culture in an interactive and interesting way, Taman Pintar Yogyakarta has several tourist attractions in its facilities that are divided into several zones.

The final project entitled “Making a Video Tutorial for Being an Announcer at the Information Division of Taman Pintar Yogyakarta” is used to help the staff at the Information Division of Taman Pintar Yogyakarta in delivering the public announcement, especially spoken announcements in English script with correct pronunciation. In completing this final project, the writer adopted the procedure from Sunarya et al. (2021). These are three stages: pre-production, production, and post-production. In addition, in collecting data method, the writer applied the procedure from Cresswell (2012), Interview, observation, documentation, and audiovisual material. By completing this final project through the process mentioned above, is expected that the problem faced by the Infromation Division of Taman Pintar Yogyakarta is solved.
