**ABSTRACT**

*Developing A Traditional Culture Booklet for Padepokan Seni Gema Buana a As a Centrald of Tourism Village in Prajekan Bondowoso* is my Final Project. The fundamental reason in choosing this project is the existence of cultures which has not been exposed by district government. I found that there were some cultures that have big potential to be shown, but they do not have enough promotional media to show. So, this project focused on developing a booklet for *Padepokan Seni Gema Buana* with culture based. This product was completed with bilingual language to enlarge the promotion to foreign tourists. Beside this booklet had a simple size that was easy to bring. It could be used as educational media for people because this booklet explained the history and philosophy of cultures. I focused on telling about puppet as the one of attractions in Bondowoso. I believe this product will be useful either for *Padepokan Seni Gema Buana* or all sosiety. In making this booklet I had to do 8 steps to finish it, those are; deciding idea, outlining the concept writing the book, reviewing, revising, editing, arranging layout, and binding. By conducting this final project I could know how to make good booklet which needed creativity because booklet was the information medium about the institution and I suggested that English Study Program gave an additional guidance for students to offer a course on making the booklet.

**Keywords:** *A Traditional Culture Booklet, Padepokan Seni Gema Buana, tourism Village*
