

**PROCESSING DATA INFORMATION IN AMC UNIT AT ADI  
SUMARMO INTERNATIONAL AIRPORT**

**Rully Syafril Firmansyah**  
English Study Program

Language, Communication and Tourism Department

***ABSTRACT***

This report describes about the activities of internship program conducted in Adi Sumarmo International Airport 512 hours that I should spend in the real industry. I considered Adi Sumarmo International Airport as the institution to conduct my Internship Program, because Adi Sumarmo International Airport is a company which committed to provide hospitality and service. I got an opportunity to handle jobs in AMC (Apron Movement Control) section. I focused on the activities of Information Process of Operational Data in AMC unit. From that position, I learned how to become a good AMC officer.
