**ABSTRACT**

Developments in computer technology have led to changes in the various sciences , both in the research and implementation in the field . The role of computer technology is required by the various agencies of small, medium to large. Given the need for increased efficiency and effectiveness of each activity within the company can not be measured and done quickly and accurately, without the support of these technologies. In data management and data officer salary increases periodically in DISPERINDAG Jember , still using manual systems is a common step by step data . Therefore, they often cause errors in data mining officials get salaries regularly. Based on the description that has been described above , the author would like to more about the making of the Periodic System Increment In DISPERINDAG Jember , so it can help in the management of employee data and data on a regular wage increases in question.
