ABSTRACT

The aim of this research was to determine the effect of *Murraya paniculata* leaf powder in ration to broiler performance. The experimental design used in this study was completely random mized design (CRD) with 5 treatments and 4 replication. The treatment were added *Murraya paniculata* leaf powder P1 (control), P2 (2% *Murraya paniculata* leaf powder), P3 (4% *Murraya paniculata* leaf powder), P4 (6% *Murraya paniculata* leaf powder), P5 (8% *Murraya paniculata* leaf powder). The result of this study indicate that the addition of *Murraya paniculata* in the level of 2%-8% of feed were not significant different ($P>0.05$) on feed intake, body weight gain and feed conversion

Key word : *Murraya paniculata*, leaf powder, broiler performance.
