Maharani is a distributor and retail store selling primary and daily need. It is located on east edge of Jember Regency, precisely in Sumber Lesung Village, Ledokombo Subdistrict. This store is a loyal customer of PT. Telekomunikasi Indonesia Tbk and utilize it products of Telkom a lot, such as Telkom Speedy, Telkom Vision, Telkomsel dan Bostoko Application. Nowadays Maharani Store is still using calculator on the cashier to take care of their customers, but it take much time in doing the transactions and usually get wrong on calculating the prize. Based on the problems, a complex POS (Point of Sales) program is needed to solve it. One of POS program application is Bostoko. Bostoko application is an application based on web, which is designed to make easier businessman in monitoring and controlling of selling transactions. The main application of Bostoko needs internet connection to synchronize data into Bostoko web. The Bostoko POS Application can be accessed after you download and install system Bostoko POS by input username and password that has been listed before.
